## Tribal 477 Productivity System

**TribeVue-477** is an integrated software application that enables Program Directors and Case Managers to more easily facilitate 477 programs and bring improved efficiencies into data management. **TribeVue-477** allows intake staff and case managers to spend more time tending to the needs of their clients and improving outcomes, thus helping tribal members to reach new levels of self-sufficiency.

With **TribeVue-477**, tribes can more easily track the status of member participants, line item budgets, delivery of case services, and outcomes measures — in a matter of 'clicks.' Our system provides a flexible platform that captures data on member applicants; processes their applications; automates eligibility calculations; and coordinates approvals and case execution. Applicable human services programs include cash assistance and TANF, employment, training, education, tribal youth education, vocational rehabilitation, consumer services, and heating assistance.

### Features include:
