

Software application solutions designed to:

# Empower Communities

TribeVue® is a fully integrated, tribal resource planning software system by Tribal D, Inc.® that complies with the latest standards in information assurance and data protection requirements.

At times, Native American families and children need help to get ahead. The TribeVue Empower Communities software module enables Tribal Human Services departments to administer and track various assistance programs. Our applications also provide data management and process support for welfare, courts, child support enforcement, and personnel programs.

TribeVue applications that help to Empower Communities:

- ▶ **TribeVue-Assist™**  
*477 Human Services*
- ▶ **TribeVue-CSE™**  
*Child Support Enforcement*
- ▶ **TribeVue-Drug Court™**
- ▶ **TribeVue-Personnel Compliance™**
- ▶ **TribeVue-TERO™**
- ▶ **TribeVue-WIOA™**

The Tribal D, Inc. **Tribal Resource Planning** (TRP) model integrates data and applications that enable Tribal governments to manage vital program functions, access real time program execution data and measure outcomes for proactive decision-making.
